Services**

Committed to your success.

Commitment to Our Clients

DAVIS, BOWEN & FRIEDEL, INC. was founded in 1983 to offer high quality services in architecture, engineering and surveying for a wide range of project types and sizes. Our firm's commitment to our clients begins with a thorough understanding of your needs, wishes, and concerns. From project inception through construction phase service and beyond, we are committed to providing you with quality professional consulting services.

Our staff includes civil engineers, architects, structural engineers, registered surveyors, GIS specialists, traffic engineers, and various other technical and administrative personnel with excellent educational and work experience backgrounds. Our principals are all registered professionals with an average of 25 years of experience.

From conceptual sketches to full-scale design and construction, we are committed to the successful completion of projects of any scale.
